EDUCATION

Indian Institute of Information Technology Vadodara

B.Tech in Computer Science

- Achievements: JEE Mains 98.03%ile (AIR 22k) — GUJCET 98.17%ile

Gandhinagar, India

Aug 2023 – May 2027

EXPERIENCE

Full Stack Developer Intern | Site Guru

Aug 2025 – Sep 2025

- Built job and internship listing platform supporting employer-candidate workflows using Vue.js, React, Node.js, Express
- Developed real-time chat and interview scheduling features with Socket.IO and REST API integration
- Designed modular service architecture improving code maintainability and enabling horizontal scaling

PROJECTS

Scalable Grocery E-Commerce Platform

- Architected full-stack ordering system using **Next.js**, **PostgreSQL**, **Node.js**, **Tailwind CSS** with distributed processing using **Kafka** message queues for async workflows
- Optimized query performance with **Redis** caching layer, reducing database load and improving response times
- Configured **Nginx** load balancing across multiple backend instances for high availability and fault tolerance
- Deployed containerized services with **Docker** and set up monitoring using **Grafana + Prometheus**
- Built RESTful API endpoints for product catalog, cart management, order processing, and user authentication
- Applied server-side pagination and filtering for efficient handling of large product datasets

Real-Time Chat Application

- Engineered messaging platform using **Next.js**, **Node.js**, **Express**, **Socket.IO** supporting private and group conversations with **WebSocket** bidirectional communication
- Built secure authentication pipeline with **OTP** verification and **Google OAuth 2.0**
- Integrated **Prisma** ORM for type-safe database queries and **Redis** for session management and online status tracking
- Architected scalable event-driven system handling concurrent WebSocket connections efficiently

Email Notification System

- Developed rule-based notification platform using **React**, **Node.js**, **Express** with **Google OAuth** integration for email access and sending
- Created customizable notification triggers and scheduling system for automated email delivery
- Deployed frontend on **Vercel** and backend on **Railway**

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, C

Frontend: React, Next.js, Vue.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSockets, Socket.IO

Databases: PostgreSQL, MySQL, MongoDB, Prisma ORM

DevOps & Tools: Docker, Redis, Kafka, Nginx, Git, Grafana, Prometheus, Postman

COMPETITIVE PROGRAMMING

- Codeforces: Achieved Pupil rank with max rating of 1291
- CodeChef: 3-Star rated coder (Rating: 1650); secured Global Rank 244 in a rated contest
- LeetCode: Solved 600+ algorithmic problems
- Solved 1200+ problems across competitive programming platforms demonstrating strong foundation in Data Structures, Algorithms, Dynamic Programming, Graph Theory, and Number Theory

ADDITIONAL

Languages: English, Gujarati, Hindi

Interests: Competitive Programming, Backend Development, Distributed Systems
